February Meeting Pack

1: Individualised OQF Income Reports

Increase your QOF income

Ardens includes clinical reports on SystmOne to help increase your QOF income. Practices who use this frequently can increase their income by £3,000 a year and more.

Ardens can now also provide your practice with an individualised 'QOF Missed Income Report'. This helps you prioritise which registers have the highest potential financial gain.

February Meeting Pack

2: LES Payments

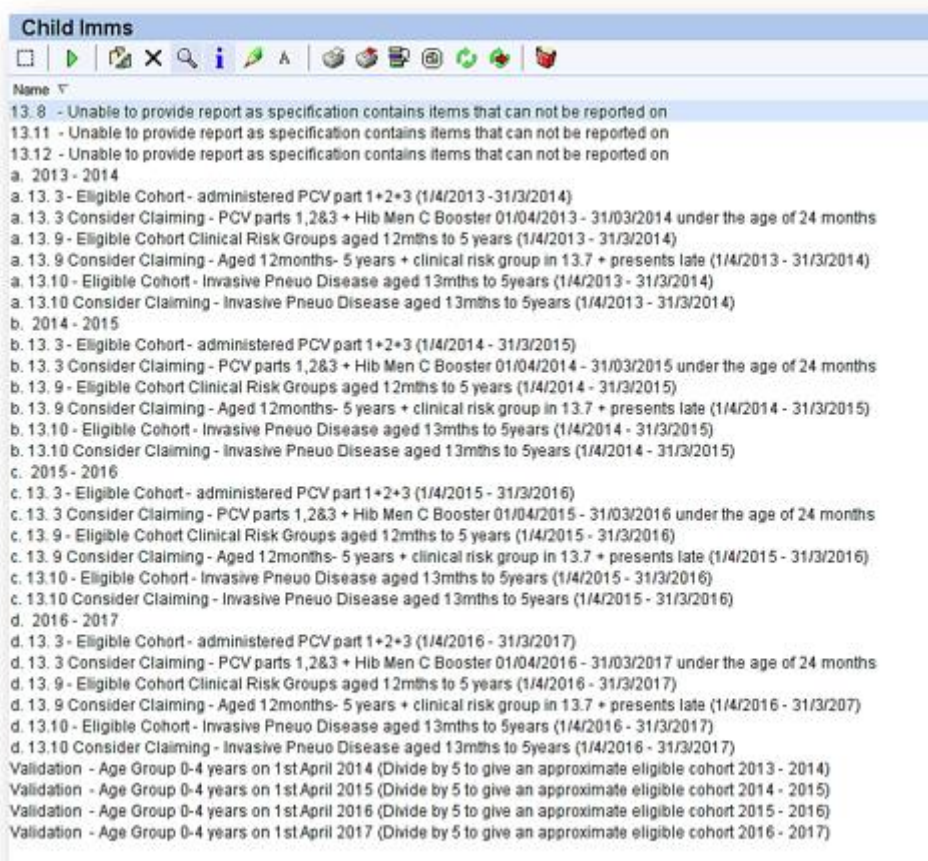

PCV Hib/Men C Vaccinations 2013 – 2017

We have now made available a set of reports to assist practices with back dated claims for these vaccinations. These can be accessed by going to **'Reporting > Clinical Reporting > Ardens > Missed Income > Child Imms'**.

Full details of eligibility can be found in [this document](#). Contact your local Public Health team to ask about these claims.

Please note: It is not possible to build reports based on the requirements of 13.8, 13.11 or 13.12 in the document linked above, this is why there is no data available for these.

Read this [article](#) to find out more. If in your area you are made aware of other potential back dated claims that can be made, please just let us know and we can help you build the appropriate reports.

Child Imms

- 13.8 - Unable to provide report as specification contains items that can not be reported on
- 13.11 - Unable to provide report as specification contains items that can not be reported on
- 13.12 - Unable to provide report as specification contains items that can not be reported on
- a. 2013 - 2014
 - a. 13.3 - Eligible Cohort - administered PCV part 1+2+3 (1/4/2013 - 31/3/2014)
 - a. 13.3 Consider Claiming - PCV parts 1,2&3 + Hib Men C Booster 01/04/2013 - 31/03/2014 under the age of 24 months
 - a. 13.9 - Eligible Cohort Clinical Risk Groups aged 12mths to 5 years (1/4/2013 - 31/3/2014)
 - a. 13.9 Consider Claiming - Aged 12months- 5 years + clinical risk group in 13.7 + presents late (1/4/2013 - 31/3/2014)
 - a. 13.10 - Eligible Cohort - Invasive Pneuo Disease aged 13mths to 5years (1/4/2013 - 31/3/2014)
 - a. 13.10 Consider Claiming - Invasive Pneuo Disease aged 13mths to 5years (1/4/2013 - 31/3/2014)
- b. 2014 - 2015
 - b. 13.3 - Eligible Cohort - administered PCV part 1+2+3 (1/4/2014 - 31/3/2015)
 - b. 13.3 Consider Claiming - PCV parts 1,2&3 + Hib Men C Booster 01/04/2014 - 31/03/2015 under the age of 24 months
 - b. 13.9 - Eligible Cohort Clinical Risk Groups aged 12mths to 5 years (1/4/2014 - 31/3/2015)
 - b. 13.9 Consider Claiming - Aged 12months- 5 years + clinical risk group in 13.7 + presents late (1/4/2014 - 31/3/2015)
 - b. 13.10 - Eligible Cohort - Invasive Pneuo Disease aged 13mths to 5years (1/4/2014 - 31/3/2015)
 - b. 13.10 Consider Claiming - Invasive Pneuo Disease aged 13mths to 5years (1/4/2014 - 31/3/2015)
- c. 2015 - 2016
 - c. 13.3 - Eligible Cohort - administered PCV part 1+2+3 (1/4/2015 - 31/3/2016)
 - c. 13.3 Consider Claiming - PCV parts 1,2&3 + Hib Men C Booster 01/04/2015 - 31/03/2016 under the age of 24 months
 - c. 13.9 - Eligible Cohort Clinical Risk Groups aged 12mths to 5 years (1/4/2015 - 31/3/2016)
 - c. 13.9 Consider Claiming - Aged 12months- 5 years + clinical risk group in 13.7 + presents late (1/4/2015 - 31/3/2016)
 - c. 13.10 - Eligible Cohort - Invasive Pneuo Disease aged 13mths to 5years (1/4/2015 - 31/3/2016)
 - c. 13.10 Consider Claiming - Invasive Pneuo Disease aged 13mths to 5years (1/4/2015 - 31/3/2016)
- d. 2016 - 2017
 - d. 13.3 - Eligible Cohort - administered PCV part 1+2+3 (1/4/2016 - 31/3/2017)
 - d. 13.3 Consider Claiming - PCV parts 1,2&3 + Hib Men C Booster 01/04/2016 - 31/03/2017 under the age of 24 months
 - d. 13.9 - Eligible Cohort Clinical Risk Groups aged 12mths to 5 years (1/4/2016 - 31/3/2017)
 - d. 13.9 Consider Claiming - Aged 12months- 5 years + clinical risk group in 13.7 + presents late (1/4/2016 - 31/3/2017)
 - d. 13.10 - Eligible Cohort - Invasive Pneuo Disease aged 13mths to 5years (1/4/2016 - 31/3/2017)
 - d. 13.10 Consider Claiming - Invasive Pneuo Disease aged 13mths to 5years (1/4/2016 - 31/3/2017)
- Validation - Age Group 0-4 years on 1st April 2014 (Divide by 5 to give an approximate eligible cohort 2013 - 2014)
- Validation - Age Group 0-4 years on 1st April 2015 (Divide by 5 to give an approximate eligible cohort 2014 - 2015)
- Validation - Age Group 0-4 years on 1st April 2016 (Divide by 5 to give an approximate eligible cohort 2015 - 2016)
- Validation - Age Group 0-4 years on 1st April 2017 (Divide by 5 to give an approximate eligible cohort 2016 - 2017)

February Meeting Pack

3: Influenza Vaccination Ordering 2018

Following the recent publication of updated guidance for the 2018/19 flu season there have been some changes in recommended vaccines that should be administered to certain age groups.

We are aware that practices are already placing orders for vaccines from their suppliers which will need to be amended. To assist practices with this there are now some reports to identify the numbers in each group.

Read the latest [guidance here](#).

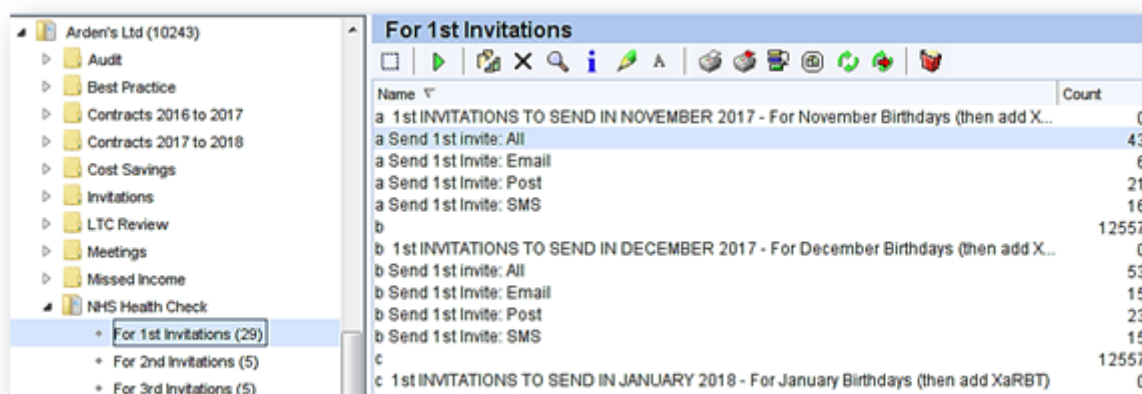

Access these reports at **'Reporting > Clinical Reporting > Ardens > Vaccinations > 2018 2019 Vaccine Orders'**

2018 2019 Vaccine Orders			
Name	Count	%	Last Run
For Adjuvant Trivalent Vaccine (aTIV): As >65yr on 31/3/19 (dob before 31/3/54)	3690	28.7 %	08 Feb 2018 09:48
For Quadrivalent Vaccine (QIV): As 18-65yr on 31/3/19 + at risk (dob 31/3/1954 - 31/3/2001)	1204	9.4 %	08 Feb 2018 09:48

February Meeting Pack

4: NHS Health Check Invites

Currently the 1st, 2nd and 3rd invitation reports and the patient status alerts are based on ages 40, 45, 50, 55, 60, 65, 70 and 74. These reports can be found by going to **'Reporting > Clinical Reporting > Ardens > NHS Health Checks'**.

Name	Count
a 1st INVITATIONS TO SEND IN NOVEMBER 2017 - For November Birthdays (then add X...	0
a Send 1st invite: All	43
a Send 1st Invite: Email	6
a Send 1st Invite: Post	21
a Send 1st Invite: SMS	16
b	12557
b 1st INVITATIONS TO SEND IN DECEMBER 2017 - For December Birthdays (then add X...	0
b Send 1st invite: All	53
b Send 1st Invite: Email	15
b Send 1st Invite: Post	23
b Send 1st Invite: SMS	15
c	12557
c 1st INVITATIONS TO SEND IN JANUARY 2018 - For January Birthdays (then add XaRBT)	0

Following a recent survey, the majority of practices can also ask patients opportunistically for an NHS Health Check at any age between 40 to 74. If a patient is within this age range and have not had an NHS Health Check done (or declined) in the last 4 years, a '!!' patient status alert icon will appear under their name.

If you wish to change this alert to just show on patients who are specifically aged 40, 45, 50, 55, 60, 65, 70 and 74.

- Go to Setup > Data Output > Patient Status Alerts
- Then search for an alert called 'Invite for NHS Health Check' and untick the enabled box to disable this alert
- Then right click and copy this alert and change the trigger report to this report 'Eligible - Consider NHS Health Check Invite as not done in last 5y (Age 40,45,50,55,60,65,70,74)'
